

[Instructions](#) [Code Examples](#) [Forum](#)Stage #GS0 **Pending**

- The error code in the response body is `0` (No Error).
- The response body contains at least one entry for the API key `1` (FETCH).
- The `MaxVersion` for the Fetch API is atleast 16.

Notes

- You don't have to implement support for the `Fetch` request in this stage. We'll get to this in later stages.
- You'll still need to include the entry for `APIVersions` in your response to pass the previous stage.
- The `MaxVersion` for the `Fetch` and `APIVersions` are different. For `APIVersions`, it is 4. For `Fetch`, it is 16.
