

# 12 Month celebration

30 December, 2023

Mom's happiness

---

## 12 Month celebration:

What would I like to be celebrating 12 months from now? Ans: Mom's happiness, My ka-la-muness happiness, Dad's happiness. (Two wrongs don't make it right).

Money I would like to celebrate, Money I want to be celebrating. The one thing. Money which is 10,000 to 20,000 taka.

- Current floor + Top floor + Down floor
  - $(7000000 * 2) + (40000 * 2) + (4500000 * 2)$
  - = 2,30,80,000 which is equal to 2,50,00,000. দুই কোটি পঞ্চাশ লাখ.
  - 100,000 usd = ১ কোটি (3 years)
  - 230,000 usd = ২ কোটি ৫০ লক্ষ
-
