Stage #BS1

Pending

```
$ redis-cli XREAD block 1000 streams stream_key 0-2
```

Your server should respond with `-$-1\r\n` which is a `null` representation of a RESP bulk string.

Notes

- In the response, the items are separated onto new lines for readability. The tester expects all of these to be in one line.

`$3\r\nnil\r\n` cannot pass the test, it should be `-$-1\r\n`
