

[Instructions](#) [Code Examples](#) [Forum](#)Stage #WQ2 **Pending**

- The `topic_id` field in the topic response should be equal to the topic UUID of the topic.
- The partition response should contain details of the partitions assigned to the topic.
- The error code in all the partition responses should be `0` (`NO_ERROR`).
- The `partition_index` field in all the partition responses should be equal to the partition ID of the partition assigned to the topic.

Notes

- The official docs for the `DescribeTopicPartitions` request can be found [here](#).
