MEDIUM

In this stage, you'll implement the Fetch response for a Fetch request with no topics.

 **We're still working on instructions for this stage.** You can find notes on how the tester works below.

In the meantime, please use [this link](#) to ask questions on the forum.

Tests

The tester will execute your program like this:

```
$ ./your_program.sh
```

It'll then connect to your server on port 9092 and send a `Fetch (v16)`
