Instructions   </> Code Examples   Forum   Stage #NC5   Pending

- The error code in the response body is `35` (UNSUPPORTED_VERSION).

The tester won't validate the first 4 bytes of your response (the "message length") in this stage. We'll get to this in later stages.

Notes

- The `APIVersions` request will be sent with an invalid `APIVersion` (Examples: `-1` or `1234`).
