-"foo"	Operand must be a number.
-true	Operand must be a number.
-("foo" + "bar")	Operand must be a number.
-false	Operand must be a number.

The tester will assert that the exit code is 70, signifying a runtime error. Note that this is different from the expected exit code for a syntax error, which is 65.

Notes

- This output format matches the spec in the **book's repository**
