Assignment operation #PL3   Pending

Complete previous stages to gain access to this stage.

📄 Instructions   </> Code Examples   💬 Forum

Your Task   Pending   Share Feedback   MEDIUM

In this stage, you'll add support for assigning values to variables using the $=$ operator. You need to only support variables that have already been declared on the left side of the assignment. Note that assignment is right associative, so $a = b = 1$ is equivalent to $a = (b = 1)$.

Book reference

The code for this stage is implemented in **Section 8.4: Assignment**.

Tests

The tester will run a series of tests with `test.lox` files that contain the assignment operation.

For example, if `test.lox` contains the following

RECENT ATTEMPTS   11

Mari...

garvi...

fb1

Aida...

aaro...

pasca...

kishan...

Priyat...

</> dolphi...

Kaysas0

?
